Product code: 6041541
Pack Size: 12 x 500g
6040477 1 x 10Kg

Why Sanitise Surfaces?

Influenza virus' can live on surfaces for 2 hours or longer so you must make sure all the surfaces you touch are clean. To clean and disinfect surfaces Diversey recommends Titan Sanitiser.

What is Titan Sanitiser?

- Titan Sanitiser is a chlorine based detergent sanitiser powder.
- It is safe to use on all hard washable surfaces.
- Provides cleaning and disinfection in one step.
- This product can be used as a solution at 1% (1000 ppm Av.Cl) which is ideal for cleaning large areas.
- It is effective against a wide variety of pathogens including viruses

How do I use Titan Sanitiser?

1

Empty any dregs from cups into the sink and rinse away, ensure sink is disinfected before sanitizing cups. A washing up bowl can be used instead of using hand basin.

2

Fill sink with warm water, add Titan Sanitizer.

3

Totally immerse cups, glasses, saucers etc. and leave for at least 5mins.

4

Rinse items thoroughly in hot water to remove all washing solution.

5

Dry with disposable paper.

Virus Effective?

Expected to be effective against Influenza A viruses based on minimum level of active ingredient (chlorine) and WHO or local authority issued guidelines
