

# Arm yourself against Influenza Virus'

Viruses can live on surfaces for 2 hours or longer so you must make sure all the surfaces you touch are clean. For this Diversey recommends Oxivir.

## Oxivir spray:

- A powerful detergent disinfectant
- Excellent bactericidal virucidal fungicidal activity
- A unique formulation based on innovative accelerated hygiene peroxide technology
- Wool safe approved
- Suitable for most washable surfaces and fabrics.
- No hazard classification
- Ideal for cleaning any area

# Arm yourself against Influenza Virus'

## Arm yourself against Influenza Virus'

No body likes being ill and as we all know how quickly Influenza Virus' can spread we know you want to take every precaution protect yourselves.

At Diversey we are here to help. This leaflet details a few of the precautions you can take, and offers our recommendations for the best products to arm yourself with.

Avoid close contact with people who appear unwell and who have fever and coughs. If you feel unwell avoid contact with others.

Keep yourself healthy, eat well, sleep well and keep active.

Wash your hands with soap and water or use alcohol gel regularly.

- after using the toilet
- before and after eating or drinking
- after you shake hands
- after you sneeze, cough or blow your nose
- after handling money

Disinfect all the surfaces that are frequently touched.

- handles
- telephones
- light switches
- furniture
- lift buttons

Diversey have been fighting germs and viruses for years, and through our work with the NHS we have everything you need to reduce your chances of catching Influenza Virus'.

We have a wide range of hand soaps and gels but the best for Influenza Virus' are Soft Care Sensisept and Soft Care Med.

Both of these can be dispensed through a Soft Care Line dispenser which uses a hermetically sealed pouch to stop airborne viruses contaminating the product.

### Soft Care Sensisept :

- Mild, perfume free hand wash
- Contains a highly effective bactericidal agent, chlorhexidine digluconate
- It stays active after you have washed your hands for longer lasting hygiene
- When you use Sensisept you can feel the difference
- Tested and effective against Influenza A viruses

MED+

### Soft Care Med:

- Mild perfume free hand sanitiser
- Contains a blend of isopropyl alcohol and n-propanol for greater performance
- Contains moisturising agents
- Formulated to stay working on the skin for longer
- It can be used up to 20 times a day
- Available in three convenient packs
  - 800 ml pouch for the Soft Care Line Dispenser
  - 500 ml pumps for easy transportation
  - 100 ml pocket size for personal use
- The 100ml can also be attached to belts with a Soft Care Med mini reel
- Tested and effective against Influenza A viruses
