

Preventing Influenza Virus' Together

Soft Care Sensisept

Diversey's most effective hand sanitiser, critical in the battle against Influenza virus'

Product code: 6970900
Pack Size: 6 x 800ml

Why Wash Your Hands?

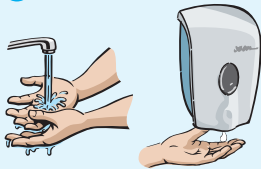

Influenza virus' are commonly transferred from person to person or from surfaces via the hands. Even individuals that do not fall ill can carry and transfer viruses to others. This is why it is critical that hands are sanitised regularly, especially after contact with frequently touched surfaces. To thoroughly clean hands Diversey recommends Soft Care Sensisept.

What is Soft Care Sensisept?

- Soft Care Sensisept is an exceptional hand disinfecting wash.
- It contains chlorhexidine digluconate, a highly effective bactericidal agent, combined with a surfactant system that ensures the removal of greasy soil.
- Soft Care Sensisept is perfume free and mild on the skin. It is effective against bacteria and viruses such as Influenza virus'.
- The chlorhexidine digluconate remains active after hand washing resulting in longer lasting hygiene

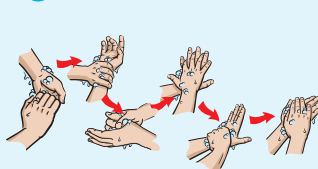

How do I use Soft Care Sensisept?

1

Wet hands before applying soap. Dispense one measure of Soft Care soap.

2

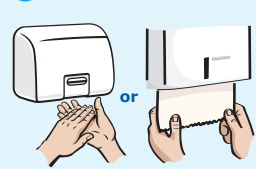

Rub hands, fingers & thumbs, wrists & forearms until soap lathers.

3

Rinse.

4

Dry hands, wrists and forearms under automatic hand drier or dry using towels.
