Product code: 6125710
Pack Size: 2 x 3.88kg

Soft Care Tex?

Influenza virus' are commonly transferred from person to person or from surfaces via the hands. Even individuals that do not fall ill can carry and transfer viruses to others. This is why it is critical that hands are sanitised regularly, especially after contact with frequently touched surfaces. If it is not possible to wash with soap and water, Diversey recommends Soft Care Tex wipes.

What are Soft Care Tex Wipes?

- Soft Care Tex is an effective hygienic alcohol hand wipe that is suitable for frequent use when water is not available.
- It has a high moisturiser content that prevents skin irritation
- The products is formulated and packed to keep the wipes fresh and effective.
- The wipes are dispensed one at a time to prevent cross contamination.

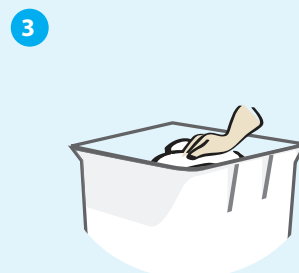

How do I use Soft Care Tex?

1 Take one wipe from the dispenser.

2 Use the wipe to rub hands, fingers & thumbs, wrists & forearms.

3 Dispose of the wipe into a touchless waste bin.
